## CARMEN CIRICILLO

The  
**Construction Comic**

Unique Funny Informative

In the last 15 years, Carmen Ciricillo, has taught continuing education to thousands of construction professionals. He also has more than 25 years of experience as a stand-up comic and speaker to the construction industry.

His method of teaching, combining humor with relevant course material, has made him one of the most popular CE teachers in the industry. His ability to grab and hold the attention of his students keeps them awake and interested in the course topics. Construction leaders who have attended Carmen's classes have enjoyed their experiences so much that they continually hire him for other events. In the last year Carmen has performed in Vegas, Atlantic City, Chicago, Cleveland and all over Florida helping the construction industry to laugh. His comedy routines have also launched him into the national television spotlight performing on major television networks including the Discovery Channel where he was a regular on "Your New House". Volvo Rents headlined Carmen in 2009 for their HardHat Comedy Tour which raised money for charities and promoted construction in a positive manner. The Construction Comic has two CDs on iTunes and also can be heard currently on XM/Sirius Satellite radio. If you are looking for a unique CE experience where you will learn and have a great time doing so then Carmen is the right choice for you!

### Florida Contractor Course A

This class covers safety, laws and rules, advanced code, business practices and workers compensation requirements. The rest of the seminar hours will be applied to your general hour requirements. Electrical contractors can take this course then receive a homestudy book for their 7 hour technical requirement. If you are a professional engineer you will also get 4 PDH credits in Areas of Practice by taking this course.

CILB#0608142 / ECLB #0800138 / Miami-Dade D090-013 /  
FBPE #0007104

### Florida Contractor Course B

This class covers safety, workers compensation, business practices and wind mitigation. The rest of the hours which include green building and construction economics will be applied to your general hours requirement. If you are a professional engineer you will also get 4 PDH credits in Areas of Practice by taking this course.

CILB Approval #0608143 / Miami-Dade D090-014 / FBPE  
#0007105

“I have been attending these courses since their inception – never before has anyone held my interest for more than 5 minutes, let alone 2 days!”

“I enjoy your seminars – the humor you bring to the subjects is appreciated. Your seminars are the only one I will attend!”

“What a great way to learn and laugh at the same time! You have changed my opinion about attending these classes!”

“I will be a repeat client as long as Carmen continues to teach... the class was informative and entertaining!”

“I enjoyed your class once again and appreciate the professional and humorous manner in which you present the materials required!”

“Thanks for an interesting 2 days and finally money well spent!”
